**CLEAN SLATE** is constantly called to resolve complicated work others are unwilling / unable to perform.

## Core Competencies

Clean Slate Environmental a leading contracting firm located on the eastern shore of Maryland and a consistent innovator of methodology and protocol followed by larger companies in the mold and asbestos remediation fields. We offer cutting edge technology with proven field performance on an individual and personalized basis. Our patent pending system is based on 30 years proven performance in Northern European Hospitals and is the only truly effective bio-hazard reduction system geared for MRSA as well as Influenzas, and is the most effective mold abatement system available in the United States.

### Differentiators

Remediation to the next level

- EPA registered.
- Eliminates viruses - MRSA, H1N1, Avian Flu etc.
- Virus/germ kill times from 5 to 20 min.
- Unprecedented turnaround times from 2 – 4 hrs.
- Specialized testing and monitoring equipment
- 3 stages ensure best possible performance.
- Mobile and modular.
- Electrostatic charged and aerosol dispensed for complete disinfection of all surfaces even HVAC systems.
- Only system that filters-fogs-scrubs-UV eradication and evacuated room air.
- True bio hazard reduction system.
- 30 years in European Medical Settings where MRSA infection rate is 100 x lower than US.
- **Guaranteed to work**

### Company Data

- \*Established in 1992.
- \*Leader and Innovator in growing mold remediation field.
- \*OSHA HAWOPER Accredited
- \*6yrs Emergency Management, Talbot County, MD
- \*100% satisfaction on all commercial work
- \*The 'go to firm' for demanding jobs others cannot complete.
- \*Patent pending system, 4 yrs in development: "The Clean Slate HP Bio System"
- \*Member – Chesapeake Regional Tech A
